

DELO

Precision dispensing unit DELOMAT 101

Maximum accuracy when dispensing in laboratory operation

DELOMAT 101 provides you with an easy-to-use and economical solution for reproducible dispensing. Being suitable for a multitude of liquids and pasty media, this pressure-time dispensing unit excels as a semi-automatic table device for small series and for high-precision

prototype development. Since it can be controlled via PLC, it can also be integrated into systems, and thus operated fully automatically. This offers you investment security for the start-up of your production.

Your benefits

Time-pressure dispensing

High precision and repeatability

No drop formation

Retention vacuum for low-viscous liquids

Controllable by PLC

For fully automatic dispensing, investment security through scalability

Low space required

Compact design simplifies integration into systems

Long lifetime

High-quality, powder-coated & robust stainless steel housing

Optional nozzle heater

Easy dispensing of high-viscous media

Virtually maintenance-free

No wear parts, low downtime costs

Intuitive operation thanks to clear menu navigation

Change of parameters, such as pressure, time and temperature, with just a few keys

Media that can be dispensed

- Adhesives
- Encapsulants
- Soldering paste
- Greases
- and many more

Technical details

Control	Foot switch, finger switch, PLC
Operating modes	Time-controlled & continuous operation
Viscosities that can be dispensed	0.1 – 10 ⁵ mPa·s (flowable to pasty)
Nozzle heater	Optionally available
Adjustable time range	0.01 – 640 s
Adjustable pressure range	0.01 – 6.0 bar increment 0.05 bar
Retention vacuum	Yes
Power supply	Primary: 100 – 240V AC 1.0A, 50 – 60Hz Secondary: 24V DC 1.5A
Weight	1.2 kg
Dimensions (W × D × H)	153 mm × 195 mm × 64 mm
