DELO DUALBOND® GE4949
light and humidity-curing acrylate adhesive, medium viscosity

**Base**
- modified acrylate
- one-component, solvent-free

**Use**
- multi-purpose for plastic/plastic, glass/plastic, metal/plastic, glass/glass and glass/metal bondings
- tension-equalizing thanks to high elongation at tear
- the cured product is normally used in a temperature range of -40 °C to +120 °C; depending on the application, other limits may be more reasonable
- compliant with RoHS directive 2015/863/EU

**Processing**
- supplied ready for use and can be processed well from the original container or with DELO dispensing units
- the surfaces to be bonded must be dry as well as free of dust, grease and other contaminations
- use DELOTHEN cleaners for the cleaning of bonding surfaces
- use DELOTHEN EP cleaner for the cleaning of glass
- for further information please refer to the instructions for use

**Curing**
- with UV light or visible light in a wavelength range of 320 - 450 nm and by humidity in shadow zones
- humidity curing starts at the surface of the acrylate; a skin is formed after a few hours; deep curing of the acrylate proceeds with approx. 2mm/24h

**Curing parameters**
- dependent on material thickness and absorption, adhesive layer thickness, lamp type and distance between lamp and adhesive layer
Absorption spectrum
- photoinitiation system in acrylate matrix

**Technical data**

**Color**
uncured in 0.1 mm layer thickness

**Density [g/cm³]**
DELO standard 13
1.0

**Viscosity [mPas]**
at 23 °C, Brookfield spindle/rpm 7/5
35000

**Minimal curing time [s]**
DELO Standard 23, LED intensity: 60 mW/cm², DELOLUXcontrol
20

**Minimal curing time [s]**
DELO Standard 23, LED 400nm, intensity: 200 mW/cm², DELOLUXcontrol
10

**Compression shear strength glass/glass [MPa]**
DELO Standard 5
LED intensity: 200 mW/cm², DELOLUXcontrol, irradiation time: 30 s
10

**Compression shear strength glass/Al [MPa]**
DELO Standard 5
LED intensity: 60 mW/cm² DELOLUXcontrol, irradiation time: 60 s
curing time: 24 h at room temperature (23 °C, 50% relative humidity)
7

**Compression shear strength glass/PA [MPa]**
DELO Standard 5
LED intensity: 200 mW/cm², DELOLUXcontrol, irradiation time: 30 s
10

**Compression shear strength glass/PBT [MPa]**
DELO Standard 5
LED intensity: 200 mW/cm², DELOLUXcontrol, irradiation time: 30 s
4

**Compression shear strength PC/PC [MPa]**
DELO Standard 5
LED intensity: 60 mW/cm² DELOLUXcontrol, irradiation time: 60 s
curing time: 24 h at room temperature (23 °C, 50% relative humidity)
7

**Young’s modulus [MPa]**
at 23 °C, DMTA
118

**Shore hardness A**
according to DIN EN ISO 868
85

**Shrinkage [vol. %]**
DELO Standard 13
4.6
Water absorption [weight %]  
according to DIN EN ISO 62, layer thickness 500µm

5.8

Processing time
at room temperature (max. 25 °C)

4 weeks

Storage life
at 0 °C to +10 °C in unopened original container

6 months

Instructions and advice

General
The data and information provided are based on tests performed under laboratory conditions. Reliable information about the behavior of the product under practical conditions and its suitability for a specific purpose cannot be concluded from this. It is the customer's responsibility to test the suitability of a product for the intended purpose by considering all specific requirements and by applying standards the customer deems suitable (e. g. DIN 2304-1). Type, physical and chemical properties of the materials to be processed with the product, as well as all actual influences occurring during transport, storage, processing and use, may cause deviations in the behavior of the product compared to its behavior under laboratory conditions. All data provided are typical average values or uniquely determined parameters measured under laboratory conditions. The data and information provided are therefore no guarantee for specific product properties or the suitability of the product for a specific purpose.
Nothing contained herein shall be construed to indicate the non-existence of any relevant patents or to constitute a permission, encouragement or recommendation to practice any development covered by any patents, without permission of the owner of this patent.

All products provided by DELO are subject to DELO's General Terms of Business. Verbal ancillary agreements are deemed not to exist.

Instructions for use
The instructions for use of DELO DUALBOND are available on: www.DELO.de. We will be pleased to send them to you on demand.

Specification
The properties in italics are part of the specification. Ranges with clear limits are defined for them and others, where applicable. In the course of the QA test, each batch is tested for these properties and the maintenance of the limits is ensured. The measuring methods used can deviate from those specified in the data sheet. Details can be found in the QA test report.
